

# TOCAT10 Sponsorship & Exhibition Prospectus

TOCAT10 Organizing Committee

Chair: Yasushi Sekine

The Catalysis Society of Japan has hosted the Tokyo Conference on Advanced Catalytic Science and Technology (TOCAT) every four years, focusing on both fundamental and applied research in catalysis, especially emphasizing industrial catalytic technology. The last conference, TOCAT9, was held in Fukuoka in 2022 and welcomed approximately 1,000 participants from industry and academia. The upcoming **TOCAT10 will be held at Waseda University (Waseda Campus) in Tokyo from August 18 to 23, 2026.** We anticipate more than 1,000 participants again. We sincerely request your support and cooperation for this event. There are two forms of support available: Sponsorship and Exhibition. Additionally, luncheon seminars (with lunch provided, maximum 80 participants) are planned for August 20–22, 2026.

The poster is a vibrant blue graphic with white and yellow text and icons. At the top left is a geometric logo. The main title 'TOCAT 10' is in large white letters, followed by the subtitle 'The 10th Tokyo Conference on Advanced Catalytic Science and Technology'. The date and location 'Date: August 18-23, 2026, TOKYO, JAPAN' are prominently displayed. A QR code is located to the right of the date. Below the date, the abstract submission deadline 'October 30, 2025' and the chairperson's name 'Prof. Yasushi Sekine' are listed. The bottom of the poster features the slogan 'We welcome your participation!' in large white letters. Various icons representing chemistry and technology are scattered throughout the design.
